Dear Mike,

Thank you again for the wonderful job you did speaking to The Citadel's sophomore class January 23. Your combination of humor and "tough" facts was a great mix for our students.

I have had a lot of positive feedback from the presentation. Some examples from students include:

- "I wasn't bored and nobody went to sleep." (High praise from a group of students who are always sleep-deprived!)
- "I thought it was amazing!"
- "He really made us think and got down on our level."

From administrators:

- "He was the best presenter I've ever heard on campus."
- "I hope you're planning on bringing him back. I think all students need to hear this message."

So, it was a rousing success. I've also had students in my office to discuss the presentation. Their comments have been a great resource for me in building my prevention/response program.

Thanks again. I'll call you soon to schedule for fall semester!

Sincerely,

Janet Shealy
