Dear Mike,

You performed your program "Can I Kiss You" to the East Granby Middle/High School. The first performance was for the 7<sup>th</sup> and 8<sup>th</sup> graders. The second performance was presented to the 9<sup>th</sup>-12<sup>th</sup> graders. They were both presented in an appropriate manner for both age groups. I think you can relate very well to the students and it shows by the respect that you received during your presentations. I also liked how you related to the students by sharing your personal aspect of sexual assault. You touched based on a lot of things students are dealing with on a daily basis. Students can take what they learned from this presentation and use it everyday in and out of their school settings. The feedback I received was all very positive and I am very confident that we will be booking you again for future presentations.

We truly appreciate you taking the time to do these presentations. It helps students in so many ways. We can only hope students who are in need of getting help for these topics will feel more confident in doing that now, thanks to you!!!!!!
