Mission

Students will be able to connect, compete, and collaborate as global citizens.

Vision

For our students to compete, connect and collaborate as global citizens, we will provide them an effective academic and career-oriented education that is rigorous and relevant, and build positive relationships.

To Whom It May Concern:

Lakes High School was fortunate to be able to have Mike Domitrz speak to our 9th grade students. His message of communication, respect and honesty in all relationships was very well received. Not only did he talk about doing this, he modeled how to do this.

I found out about the "May I Kiss You" presentation through a regular speaker of mine. She saw his presentation at a conference she attended and recommended this program to complement what I am already doing in my 9th grade health classes. To be honest, my administrators were a little concerned with the topic, but once they saw the presentation they all thought that Mike did an excellent job of handling a difficult topic in a very safe, respectful way. Actually, Mike does an amazing job. We have heard nothing but positives from students and staff alike. The students enjoyed the presentation and went away thinking about what was said. I, personally, learned some new ways of dealing with some difficult situations that are brought up in my health class.

I hope that we can continue to have Mike present to our students. All students need to hear this message. Things will not change unless we can talk about what is happening and discuss alternative behaviors. Mike's presentation give us a way to do this. Even though sexual assault is a difficult topic Mike handles it in such a way that student actually listen. I truly believe that the presentation touched both students and staff alike. We all have been changed by hearing this presentation. And the change is for the better.

Sincerely,

A handwritten signature in cursive script that reads "Patricia Hannam".
